

AIRPORT PAVEMENTS LETISKOVÉ VOZOVKY

5th International Conference

14th – 15th May 2020

The High Tatras, ATRIUM Hotel ***, Slovak Republic

ORGANIZERS

Kongres STUDIO, spol. s r.o., SK
Department of Transportation Engineering, Faculty of Civil Engineering STU in Bratislava, SK
CET – Consulting Engineering and Translation, CZ
in cooperation with:
Ministry of Transport and Construction of the Slovak Republic
Transport Authority, SK
Helios Technology, Ltd., SK

STEERING COMMITTEE

Andrea ZUZULOVÁ
Ivan GSCHWENDT
Dominika HODÁKOVÁ
*Department of Transportation Engineering STU
in Bratislava, SK*
Ľudovít GÁBRIŠ
Helios Technology, Ltd., SK

Vladimír CHUPÍK
CET – Consulting Engineering and Translation, CZ
Blanka LUKÁČKOVÁ
Kongres STUDIO, spol. s r.o., SK
Michaela VALAŠTÍNOVÁ
Transport Authority, SK

TOPICS

● RECONSTRUCTION OF AIRPORT PAVEMENTS

1. Climate condition changes and their influence on airport pavements

* Temperature regime of CC pavement * Mitigation the influence of clima changes on CC pavements * Correction of pavement design methods

2. Diagnostic of pavements at the airport

* Equipments and methods of measurements * Evaluation the pavements serviceability
* ACN/PCN and new methods

3. Repairing and reconstruction of airport pavements

* Materials and technologies for reconstruction * Strengening of airport pavements * Improving the surfacing characteristic

4. Unpaved airport areas

* Bearing capacity of unpaved surface * Requirements on unpaved areas * Drainage of unpaved areas
